## How it works:

## Your Smart Loyalty App

The app is one of the best resources you have at your fingertips for insights and understanding about your distributors engagement with the Maxliner Rewards program.

You can see all distributors enrolled in the program, what they're redeeming their points for, and their points information. Knowing these elements can help you to make more informed decisions about how to engage your distributors.

## Rewards Shop

Our online Rewards Shop provides your distributors with thousands of products they can redeem their points on. Items are delivered straight to their door from Smart Loyalty's leading suppliers.

## Points + Pay

If your distributors don't have enough points, they can still get the rewards they want, instantly, by making a cash top up on their redemption.

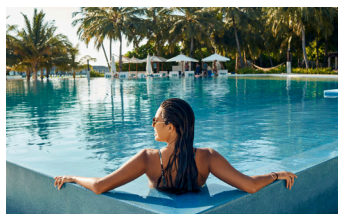

## Dream Rewards

Our Dream Rewards concierge service gives your distributors the power to choose how they use their points. From flights and accommodation to one-of-a-kind experiences, spa pools to jet skis... we'll go above and beyond to fulfil their requests.
